PROFESSIONAL EXPERIENCE

Solution Assistant
15/03/2021 - today

Everis

I am currently working as a Solution assistant for the multinational company Everis, specifically I offer my services for Everis Seville.

My position in the projects in which I work is junior developer.

Researcher and developer
15/09/2020 - 15/03/2021

Ingeniería Web y Testing Temprano

I worked for 6 months in the research industry developing tasks related to robotic process automation (RPA) and artificial intelligence (AI) for the research group of the niversity of Seville IWT2 in collaboration with the Servinform company.

I decided to leave this position to explore new challenges outside the research field.
